[REDACTED]

I appreciate your efforts to warn me about her. She is, I believe still very much in love with you and has been. Even when she and I were dating, she talked about loving you. For what it is worth, I believe I was the only man with whom she was having sex. I asked her to get tested for STDs and she showed me the test results that she got at the time; they were all negative. I can see that you believe her to be dangerous and I would understand completely if you didn't want any further involvement with her. I won't be myself, but thought you might want to know that she does not, or at least did not, seem to be very promiscuous when I was seeing her. Thank you again for letting me know about your concerns for me. I wish you well.

K

I realize that I stated I would not be contacting you again, but if you are not aware of her latest actions then you are now.

Again, I am going to ask you to keep this to yourself. Up to you if you do not, but the first email drew her wrath to me. Xenia/Thea is as vindictive as a person can be.

Apparently you two hooked up in a preview room at Fantasy Video. Well you had to provide identification to do this. Yesterday Xenia/Thea had an appointment to speak with a manager at Fantasy Video. The attached photos are of the front and back of the card that she had in her wallet.

When I asked her about the card and apparent appointment that was on the back she literally told me that she was inquiring about getting the copy of the identification that you had used. Why would she tell me this? She is extremely narcissistic (covertwatch the video) is the only answer I have. She firmly believes that she is right about everything.

As I have stated before, this is not the person you want to have fixated on you.

I am providing you some information that you should know. I would have preferred to do this in person or over the phone. Being it is important that you should know this.

I have told you that she is a narcissistic psychopath. I do not recall if I left out the word MALIGNANT or not? The following link: https://youtu.be/JP0oTFxYo_U

is to a respected psychologist. He is describing what a malignant narcissistic psychopath is and how they behave. I have known this woman for three years. The description in the video is 100% accurate. To tell you that she tore my personal, professional, and social lives apart is an understatement. She is extremely dangerous both in matters concerning your life and your actual life. She is quite capable of attempting to physically harm you or others close to you. This has been my personal experience. She even followed a woman I was dating through a Safeway once. Parked right beside her car. Here is some information that you may not know about Xenia/Thea... She has a private investigators license and she is bonded. She also has a concealed carry permit. I do not know if she has a weapon.

This one is important and do take it seriously. If she has sent you photos, links, etc. that you have opened on your phone, then you need to reset your phone. If she has had access to your phone or a laptop, any network equipment you may have, you had better reset these devices back to factory default. She quite good at hacking the aforementioned technology.

I am certain you are aware of this but I will mention it anyway. Xenia/Thea is an IV drug user. Meth is her drug of choice. If you think that she has been only having sex with you, that is a gross and grotesque underestimation. Last week I know that she presented herself to me after having sex three times during the week. This means she will fuck someone then try to get me to fuck her. No thanks. She has also let it slip that she has shared needles with others. Combine this with the unprotected sex and you are taking huge risks for yourself, your wife, and your literal ability to be financially viable.

Again, I do not know you. I wish you no ill will. I simply do not want to see anyone else go through what I have been going through. If you would like to talk please feel free to email me or call [REDACTED] If you do not then that's okay too.
